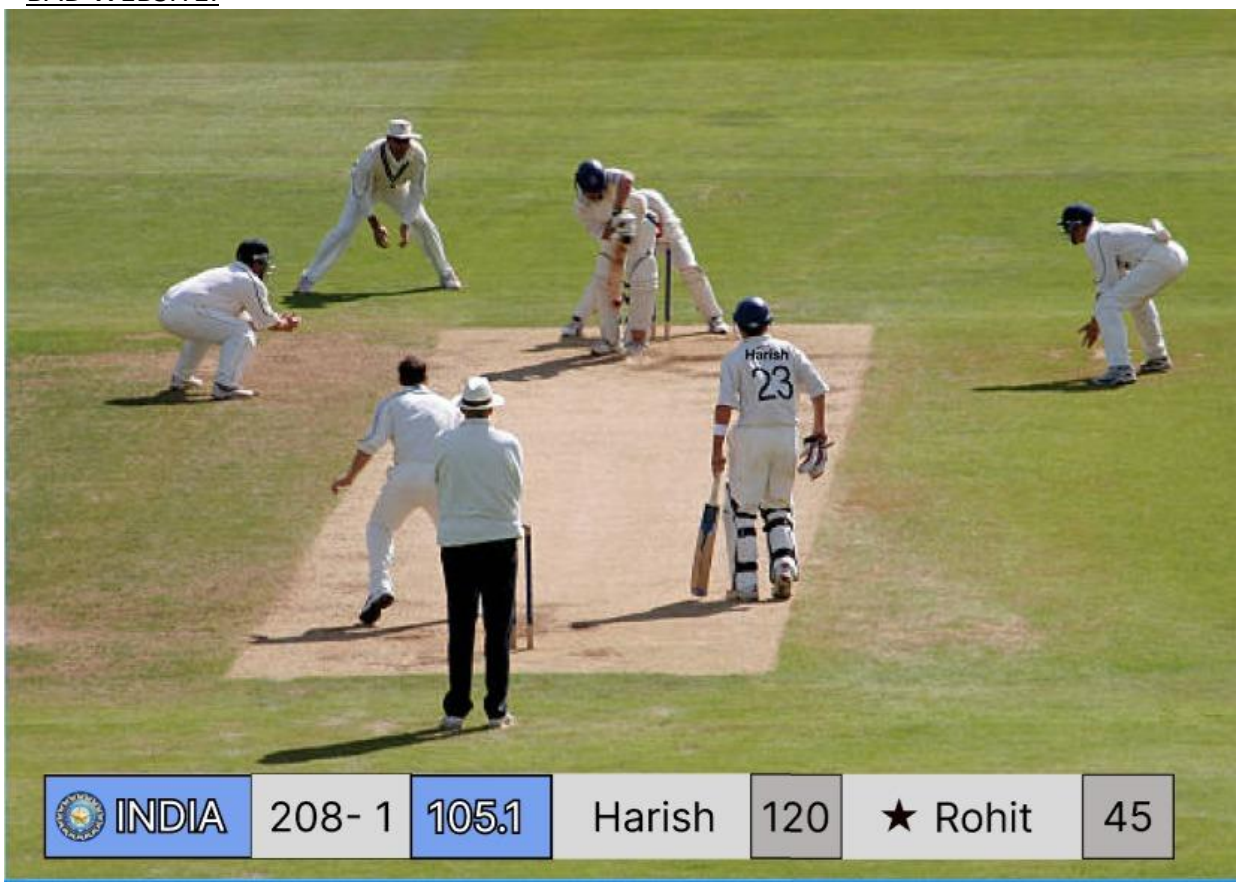
EXPERIMENT – 1

Roll No : 240701231 Name : KARTHICK K

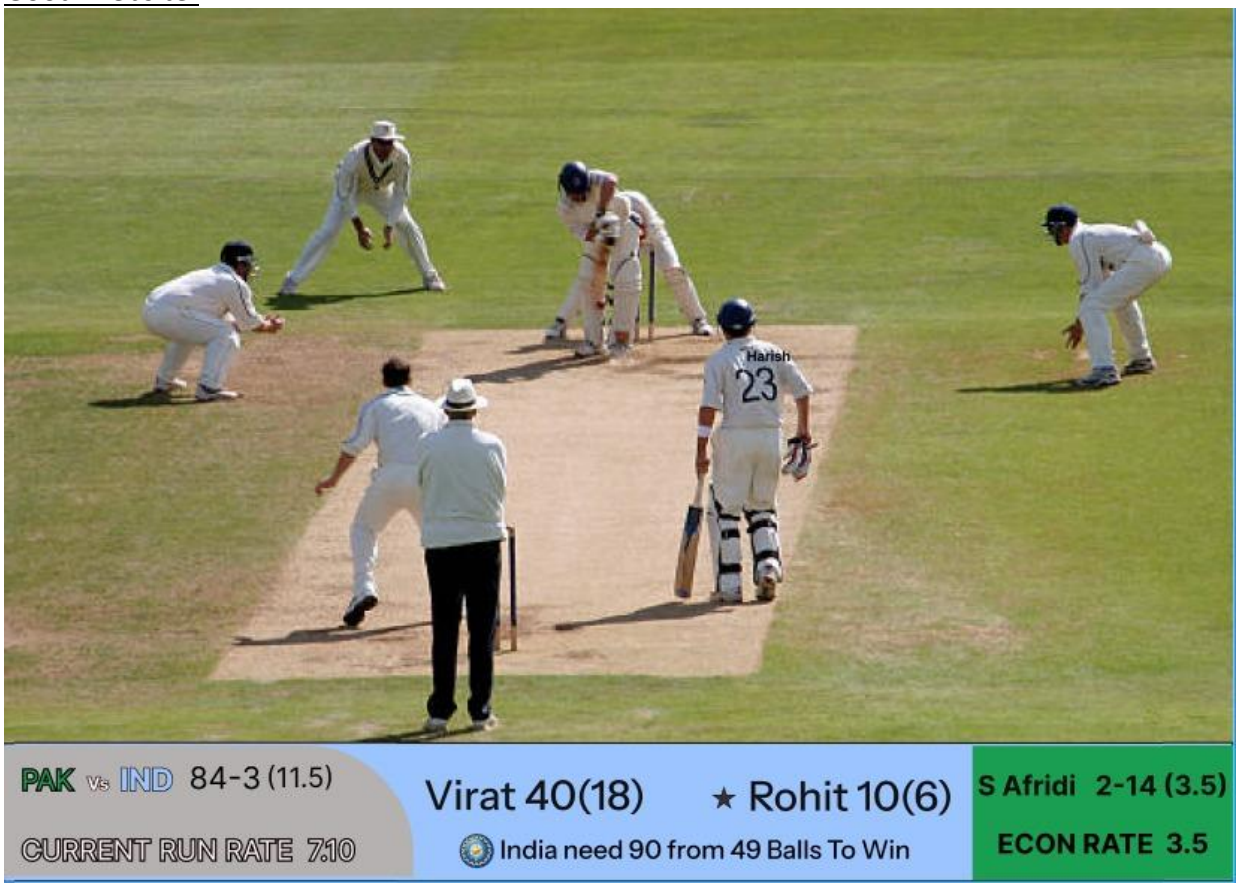
USER INTERFACE AND DESIGN

COMPARSION OF UI BETWEEN TWO FIGMA CREATION

BAD WEBSITE:



Good Website:



**BAD SCOREBOARD DESIGN:**

1. **Cluttered information:**
   Too many elements are placed together, making it hard to quickly understand the score.
2. **Weak visual hierarchy:**
   Important details like the current score and batsmen stats don't stand out enough.
3. **Poor spacing:**
   Text and boxes feel cramped, which makes the layout look messy.
4. **Dull presentation:**
   The design looks flat and less engaging for viewers.
5. **Unbalanced layout:**
   Information is not grouped properly, so the eyes don't know where to look first.
6. **Hard-to-read stats:**

   Smaller numbers and text reduce readability, especially for quick glances.

**GOOD SCOREBOARD DESIGN:**

1. **Clear information structure:**
   Score, players, and match details are neatly separated and easy to understand.
2. **Strong visual hierarchy:**
   Important elements like the team score and required runs stand out immediately.
3. **Better spacing:**
   Proper padding and alignment make the layout clean and comfortable to read.
4. **Attractive color usage:**
   Color blocks help divide sections and make the scoreboard visually appealing.
5. **Well-grouped content:**

Batting stats, run rate, and bowler info are organized logically.

6. **Improved readability:**
   Larger, clearer text makes it easy for viewers to grasp match status instantly.

---

**Key Differences**

**1. Layout**

- **Bad:** Information looks crowded and unorganized
- **Good:** Clean, structured, and neatly arranged layout

**2. Visual Hierarchy**

- **Bad:** Important details don't stand out
- **Good:** Score and key stats grab attention first

**3. Spacing**

- **Bad:** Elements are too close together
- **Good:** Proper spacing improves clarity

**4. Color Use**

- **Bad:** Looks plain and less engaging
- **Good:** Smart color sections improve visibility and appeal

**5. Readability**

- **Bad:** Smaller, harder-to-read text
- **Good:** Clear, bold, and easy-to-read text

**6. Viewer Experience**

- **Bad:** Takes more time to understand the match situation
- **Good:** Viewers can understand the score and match status at a glance
